PERSONAL PROJECTS

Path Finder

ongoing

- We created the Pathfinder application for B-Tech students to help them learn key job-related technologies. Built with the MERN stack, it features an easy-to-use design. Students can explore technologies, find helpful courses, and enhance their skills. Pathfinder connects their school learning with real-world knowledge, helping them make informed career choices.

Library Management System

2025

- Developed a cloud base online Library Management System using Embedded java script, Html, CSS, MongoDB, allowing students to access the required books. We build this with features like secure book cataloging, user management, and automated tracking

ADDITIONAL INFORMATION

- Participated in 24Hrs MERN Stack Hackthon Organized By SRKREC
- Winner in 24Hrs Devops Flowthon Organized By SRKREC
- Participated in Code BREWERS Organized By Internshala
- Participated in Full Stack Development Workshop Organized By SITE
- Participated in Smart India Hackthon Organized by Indian Government

PERSONALITY

- Strong problem-solving skills and analytical thinking
- Excellent communication and teamwork abilities
- Highly motivated and eager to learn new technologies
